

Special Issue

Advances in Photomobile Materials and Systems

Message from the Guest Editors

In this Special Issue we intend to promote this notion in all its experimental and theoretical aspects—through articles, communications, and reviews—through scientific research on light-sensitive materials that will be the basis of our near green future, with a particular but not exclusive look at photomobile polymers and/or those polymers whose mobility is photothermally induced and those devices that are derived from them. However, manuscripts regarding the use of other green sources to generate motion will also be considered as will the development of passive sensors. Our hope is to offer a platform for proposing scientifically and technically novel solutions that make use of solar energy in an increasingly efficient manner.

Guest Editors

Prof. Dr. Daniele Eugenio Lucchetta

Dip. SIMAU., Università Politecnica delle Marche, Via Brecce Bianche, 60131 Ancona, Italy

Dr. Riccardo Castagna

URT-CNR, Università di Camerino (UNICAM), Polo di Chimica, Via Sant'Agostino, 1, 62032 Camerino, MC, Italy

Deadline for manuscript submissions

closed (20 January 2025)

About the Journal

Message from the Editorial Board

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
