

## Special Issue

# Special Issue of the Manufacturing Engineering Society (MES)

### Message from the Guest Editors

The Special Issue on the Manufacturing Engineering Society is dedicated to publishing high-quality and original research in the field of Manufacturing Engineering and it is promoted by the Manufacturing Engineering Society. The main objective of this Special Issue is to publish outstanding papers presenting cutting-edge advances in the field of Manufacturing Engineering and materials processing. The journal aims to explore the evolution of traditional manufacturing models towards the new requirements of the Manufacturing Industry 4.0 and how manufacturing professionals should face the resulting competitive challenges, in the context of an ever-increasing use of digital information systems and communication technologies. Contributions on emerging methods and technologies, such as those related to additive manufacturing will have special relevance within this Special Issue, as well as those ones where sustainability and environmental issues play a fundamental role in manufacturing.

---

### Guest Editors

Prof. Dr. Eva M. Rubio

Department of Manufacturing Engineering, Universidad Nacional de Educación a Distancia (UNED), Juan del Rosal 12, E28040 Madrid, Spain

Prof. Dr. Ana M. Camacho

Department of Manufacturing Engineering, Universidad Nacional de Educación a Distancia (UNED), E28040 Madrid, Spain

---

### Deadline for manuscript submissions

closed (7 July 2018)

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
