

Special Issue

Materials for Electrochemical Energy Systems

Message from the Guest Editors

We are pleased to invite you to submit your work to this Special Issue on “Materials for electrochemical energy systems”. This Special Issue aims to cover a broad range of subjects, from synthesis to the preparation of different materials, characterization and applications of different materials (e.g., fuel cells, electrolysis, batteries, solar cells, supercapacitors, sensors, electro dialysis, ultra-, nano- and microfiltration). The Special Issue is also open for advanced materials development but not limited to sustainable structural and functional materials for fossil power, solar energy, wind energy, geothermal energy, biofuels, ocean energy and hydropower, as well as advanced energy-harvesting technologies. The micro- and nano-electromechanical systems (devices); new developments in experimental methods, and device performance measurement techniques, will be gladly considered.

Guest Editors

Dr. Daniela Ion-Ebrașu

Dr. Violeta Purcar

Dr. Simona Căprărescu

About the Journal

Message from the Editorial Board

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
