

Special Issue

Biofunctional Nanomaterials for Optical Diagnostic and Therapeutic Applications

Message from the Guest Editor

The development of new methods and approaches for the diagnosis and treatment of various diseases is one of the most actively developing fields of biomedicine. The creation of nanomaterials with unique optical properties ensures the emergence of biomedical technologies of a qualitatively new level. This Special Issue will collect original research and comprehensive reviews on the most recent advances in the field of biofunctional nanomaterials concerning nanomaterials with promising optical properties for biomedical application. We welcome high-quality papers covering novel nanomaterials with unique optical properties, methods for their biofunctionalization, bioimaging techniques, light-driven nanomaterials-based therapeutic approaches, theranostics applications, and nanotoxicological aspects.

Guest Editor

Dr. Irina V. Balalaeva

Institute of Biology and Biomedicine, Lobachevsky State University of Nizhny Novgorod, 23 Gagarin Ave., Nizhny Novgorod 603022, Russia

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
