

## Special Issue

# Advances in Mechanical Behavior of Laminated Materials

### Message from the Guest Editors

Composite materials can combine selected aspects of different materials to obtain beneficial properties. The properties of laminated composites depend on their structural design, component metals, performance matching, composite technology, interface morphology and microstructure, etc. The advanced design theory, numerical simulation technology, and strengthening and toughening mechanism of laminated composites can effectively promote the performance improvement and application of laminated materials. Many studies have focused on the design of interface structures, gradient structures, homogeneous and heterogeneous metal composites, preparation processes, and mechanical properties of metal/non-metal, double, and multilayer multi-metal laminated composites.

### Guest Editors

Prof. Dr. Zejun Chen  
Prof. Dr. Qudong Wang  
Prof. Dr. Tao Wang

### Deadline for manuscript submissions

closed (20 April 2026)

## About the Journal

### Message from the Editorial Board

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
