

## Special Issue

# Smart Biomaterials and Biointerfaces

### Message from the Guest Editors

Smart biomaterials and biointerfaces have diverse structures, properties, functionalities, and applications. In recent years, the interest in smart biomaterials and biointerfaces has increased dramatically, both from the points of view of experiment and of computation. This themed Special Issue aims to cover the most recent progress in the synthesis, coating, processing and fabrication of smart biomaterials and biointerfaces, the interactions of these materials/interfaces with biomolecules, as well as the new applications of these materials.

Assoc. Prof. Dr. John Zhanhu Guo

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
