

Special Issue

Mechanical and Microstructural Characterizations of Deformation Mechanisms at Fine Scales

Message from the Guest Editor

The objective of this Special Issue is to present research around the same theme—namely, **mechanical and microstructural characterizations of deformation mechanisms at fine scales**. We are looking for those who develop fine characterization methods and/or use them to characterize materials. The importance of pooling our strengths to create a positive synergy has been further emphasized by the unprecedented global health crisis we are going through. **Keywords:**

- nanoindentation
- in situ experiment
- micropillar
- microbeam
- microstructural characterization

Guest Editor

Dr. Jean-Sebastien Lecomte

LEM3—Laboratoire d'Etude des Microstructures et de Mécanique des Matériaux, University of Lorraine, F-57045 Metz, France

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
