

## Special Issue

# Future Trends in High-Entropy Alloys

### Message from the Guest Editors

High-entropy alloys (HEAs) is an exciting and vibrant research field of materials science, and recently the research of HEAs has been widespread world widely. Numerous studies have shown that the high entropy strategy has great potential for developing new materials with properties beyond those of conventional materials based on one principal element or component, by exploring central regions of complex composition space. The topics of interest in this special issue include, but are not limited to, the preparation, properties, and applications of materials containing: Experimental, theoretical, and computational researches of phase diagrams, processing, microstructure characterization, mechanical, physical, chemical, and functional properties of HEMs.

---

### Guest Editors

Prof. Dr. Jason Shian-Ching Jang

Institute of Material Science and Engineering, National Central University, Taoyuan 32001, Taiwan

Prof. Dr. Shou-Yi Chang

Department of Materials Science and Engineering, National Tsing Hua University, Hsinchu, Taiwan

---

### Deadline for manuscript submissions

closed (20 March 2023)

## About the Journal

### Message from the Editorial Board

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
