

Special Issue

Advanced Materials for Biochemical Applications

Message from the Guest Editor

The Special Issue focuses on solving the dilemmas related to modern biomaterials, especially in the areas of advanced biomaterials, orthopedics, tissue engineering, pharmaceuticals and biomechanics, and medical equipment. The aim and mission of the Special Issue is to present the current state of progress in research and development in the field of biomedical sciences and materials engineering. The Special Issue covers a broad spectrum of materials science research, including functional materials, theoretical analysis, synthesis and processing, characterization, and properties of compounds. Emphasis is placed on the interdisciplinary nature of materials science and issues at the forefront of the field, such as medical and bioengineering applications.

Guest Editor

Dr. Dalius Gudeika

Department of Polymer Chemistry and Technology, Faculty of Chemical Technology, Kaunas University of Technology, Kaunas, Lithuania

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
