

Special Issue

Dynamic Behaviour of Materials and Its Applications in Industrial Processes

Message from the Guest Editors

This Special Issue will publish scientific papers related to the dynamic behavior of materials and its applications in industrial processes, from their characterization to their application in industrial problems such as impact, high-speed machining, and dynamic compression. This Special Issue focuses on experimental and numerical work in terms of the dynamic behavior of materials. All materials are subject to dynamic problems involving high strain rates, high strains, high temperatures, and impact loadings. This Special Issue involves the dynamic characterization of dynamic industrial processes. I look forward to receiving proposals from authors who attend the "14th Workshop of Dynamic Behaviour of Materials and Its Applications in Industrial Processes" (<http://dynamatconference.org/>). Submissions from authors who do not attend the conference are also welcome. This Special Issue will be useful for people working in this specific field and also for doctoral students.

Guest Editors

Prof. Dr. Alexis Rusinek

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
