

## Special Issue

# Advanced Multifunctional and Multiscale Materials

### Message from the Guest Editors

Technological advances increasingly require lightweight materials with multiple functionalities that make them respond or adapt to specific internal or external stimuli. Such functionalities either derive from intrinsic properties of the materials themselves or can be delivered through a multiscale and multi-physics material design approach. The latter can be achieved through the manipulation of a material properties, for example, by embedding nanomaterials or by conceiving the material as a self-responding multi-scale system. The scope of this Special issue is to collect high-quality manuscripts that present advances in this emerging field, including novel individual nano-scale elements of a complex material system. Full papers, communications, as well as reviews will be considered for publication.

---

### Guest Editors

Dr. Giulia Lanzara

Department of Engineering, University of Roma Tre, 00146 Rome, Italy

Dr. Nathan Salowitz

Department of Mechanical Engineering, University of Wisconsin, Madison, WI, USA

---

### Deadline for manuscript submissions

closed (20 August 2022)

## About the Journal

### Message from the Editorial Board

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
