

Special Issue

Collection of Papers in Materials Science from Estonia

Message from the Guest Editor

I have the pleasure to invite you to submit a manuscript to the forthcoming Special Issue, "Collection of Papers in Materials Science from Estonia", for the journal *Materials*. For Estonia, with a total population significantly smaller than that of cities such as Tokyo or Moscow, the contributions of research teams to the development of high-tech products and recognized innovations are significant and pushing boundaries in gaining new knowledge. The Special Issue will publish original research works and the latest achievements in theoretical and experimental studies of different engineering materials, which are performed by the scientists of Estonia. Therefore, there are no limitations on topics and both original papers and reviews on the latest progress are very welcome. Reports related to Materials Science that highlight novelty and/or successful commercial applications of the developed materials and structures are of the greatest interest for the issue. Our mission is to demonstrate the high potential and the wide spectrum of studies carried out in Estonia.

Guest Editor

Prof. Dr. Irina Hussainova

Department of Mechanical and Industrial Engineering, Tallinn University of Technology, 19086 Tallinn, Estonia

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
