

Special Issue

Advanced Materials for Remediation of Environmental Pollutants

Message from the Guest Editors

Environmental pollutants represent an important factor in the development of new materials, for finding innovative synthesis and technological solutions, as well as understanding the relationships of functional properties, which may all be reflected in your scientific contributions to this Special Issue. The forthcoming Special Issue of *Materials*, "Advanced Materials for Remediation of Environmental Pollutants", aims to follow the new advances in this field of research. It is our pleasure to invite you to contribute your research article, communication or review for this Special Issue.

Keywords:

- pollutants
- degradation
- photocatalysis
- nanotechnology
- numerical simulation
- sensors

Guest Editors

Dr. Mioara Petrus
Dr. Cristina Achim
Dr. Ana Bratu

About the Journal

Message from the Editorial Board

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
