# **Special Issue**

## Advances in Semiconductor Materials for Sensors and Devices

## Message from the Guest Editor

We cordially invite you to submit your research work to our Special Issue: "Advances in Semiconductor Materials for Sensors and Devices". We are facing an increased need for the development of novel sensors and devices, which are important for practically all fields of our lives. Semiconductor materials are the basis of modern technology, and advancements in their engineering are important drivers for the development of novel sensors and other technologies. This Special Issue aims to collect novel research results related to advances in semiconductor materials for sensors and other devices. The scope of this Special Issue is to present the latest theoretical and experimental research related to the preparation, engineering and application of semiconductor materials in sensors and devices. In particular, the topics of interest include, but are not limited to: - Preparation and properties of novel bulk and nanostructured semiconductor materials; - Application of semiconductors in sensors and devices; - Modelling and engineering of semiconductor-based materials and devices.

## About the Journal

## Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. Materials provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

#### Editor-in-Chief

Prof. Dr. Maryam Tabrizian

 Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
 Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### **Journal Rank:**

JCR - Q2 (Metallurgy and Metallurgical Engineering) / CiteScore - Q1 (Condensed Matter Physics)
