Deadline for manuscript
submissions:

10 April 2025

Message from the Guest Editor

Dear Colleagues,

Statistics is the branch of mathematics that deals with data collection, analysis, interpretation, and presentation. It plays a crucial role in the health sciences by quantifying and assessing the effectiveness of medical treatments, identifying health trends, and evaluating the risk factors associated with different diseases. On the other hand, probability is the branch of mathematics that studies random events. It plays a critical role in the health sciences by enabling scientists to develop models to predict the likelihood of certain outcomes, such as the probability of a particular disease occurring in a given population. Statistics and probability form the basis of evidence-based medicine, using scientific evidence to guide medical decision making.

- Probability Theory;
- Categorical data analysis,
- Biostatistics;
- Parametric and nonparametric methods;
- Time series and survival data analysis;
- Probabilistic and statistical models;
- Bayesian methods;
- Environmental statistics;
- Epidemiological methods.

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
