Advances in Complex Systems and Their Control Principles

Guest Editors:

Dr. Lotfi Beji
IBISC Laboratory, University of Evry/Paris Saclay, 40 Rue du Pelvoux, 91020 Evry, France

Dr. Dalil Ichalal
Laboratoire Informatique, Biologie Intégrative et Systèmes Complexes, Université d'Evry Val d'Essonne, 91020 Evry, France

Deadline for manuscript submissions:
closed (31 August 2024)

Message from the Guest Editors

The main objectives of this Special Issue will focus on the dynamic behavior and stability of complex systems based on finite and infinite dimensional dynamics and their interaction. Known or unknown dynamic environments that affect complex system stability and transition are within the scope.

We invite authors to contribute research articles addressing significant issues and contributing to control principles with advancements in complex systems and their interaction. We welcome contributions in all domains that permit the emphasis of mathematical and numerical aspects while control principles are required.

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
