Advances in Machine Learning Applied to Intelligent Systems and Data Analytics

Guest Editors:

Dr. Linlin You
School of Intelligent System Engineering, Sun Yat-Sen University, Guangzhou, China

Dr. Ivan Lee
School of Information Technology and Mathematical Sciences, University of South Australia, Adelaide, SA 5001, Australia

Dr. Zhicong Chen
College of Physics and Information Engineering, Fuzhou University, Fuzhou, China

Deadline for manuscript submissions:
closed (30 September 2023)

Message from the Guest Editors

The aim of this Special Issue is to provide a forum for researchers to present their original contributions describing their experience and approaches toward a wide range of machine learning techniques applied to intelligent systems and data analytics. Submissions showcasing the latest developments in theoretical analysis, numerical experiments, practical applications, and data analytics are welcome.

Keywords

- machine learning
- autonomous and intelligent systems
- AI-driven data analytics
- computing theory
- deep learning
- distributed learning
- meta-learning
- reinforcement learning
- supervised deep learning
- unsupervised deep learning
- novel learning applications

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
