Belgrade, Serbia

Dr. Dragan Zoran Marinkovic

Department of Structural
Analysis, Faculty of Mechanical
Engineering and Transport
Systems, TU Berlin, Strasse des
17 Juni 135, 10623 Berlin,
Germany

Prof. Dr. Samarjit Kar

Department of Mathematics,
National Institute of Technology
Durgapur, Durgapur, India

Deadline for manuscript
submissions:

closed (28 April 2023)

Message from the Guest Editors

This Special Issue will collect high-quality papers addressing uncertain dynamics, their modeling, and their simulation. Submitted papers should not have been previously published or be currently under consideration for publication elsewhere.

We invite authors to submit original research articles that propose novel modeling and simulation of uncertain complex systems in various fields of natural science.

Potential topics include but are not limited to the following:

- Stochastic dynamics, SPDE;
- Random dynamical systems;
- Rough path analysis, random matrix;
- Uncertain dynamics, fuzzy dynamics, rough dynamics;
- Network analysis of complex dynamics;
- Hybrid uncertainty analysis;
- Simulation and complexity of dynamics under uncertainty.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
