Electronics, Faculty of Science
and Technology, University of the
Basque Country, P.O. Box 644
Bilbao, Spain

Deadline for manuscript
submissions:

closed (30 April 2019)

Message from the Guest Editor

Dear Colleagues,

Automation Control Systems have continued to enjoy a strong interaction with research in stochastic processes. The goal of this Special Issue is to explore such interactions between stochastic processes and mathematical finance. We are inviting submissions in various areas of current interest on dynamic systems and control systems.

Both theoretical and applied research manuscripts are welcomed, as are papers on emerging areas of control systems and interdisciplinary topics. The submitted manuscripts are required to involve a formal treatment including the use of an acceptable rigor from the mathematical point of view.

Prof. Dr. Manuel De la Sen

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
