Mathematics, Statistics and Applied Computational Methods

Guest Editors:

Dr. Marina Alexandra Pedro Andrade

Department of Mathematics, ISCTE—Instituto Universitário de Lisboa, 1649-026 Libson, Portugal

Prof. Dr. Maria Alves Teodoro

1. Center of Naval Research and Science and Technology Department, Portuguese Naval Academy - Instituto Universitário Militar, 2810-001 Almada, Portugal
2. CEMAT, Center for Computational and Stochastic Mathematics, Instituto Superior Tecnico, Lisbon University, 1048-001 Lisboa, Portugal

Deadline for manuscript submissions:
closed (31 December 2022)

Message from the Guest Editors

This special issue intends to address Computation and Mathematical Methods which are noticeably necessary for the understanding of many actual problems that arise in the applied sciences. Given the large scope of potential approached problems mentioned, the aim of this issue is to collect original and high-quality papers either focused essentially in the applied presented problems or more general theoretical views concerned with conceptual approaches of interest.

In this special issue we are interested in multidisciplinary research the convey different and innovative perspectives into the fields of computation, mathematical methods in applied sciences and data science.

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
