Modeling and Analysis of Queuing Systems

Guest Editor:

Prof. Dr. Svetlana Moiseeva
Institute of Applied Mathematics and Computer Science, National Research Tomsk State University, Tomsk 634050, Russia

Deadline for manuscript submissions:
closed (30 December 2023)

Message from the Guest Editor

Dear Colleagues,

We would like to invite you to submit your papers to the Special Issue, "Modeling and Analysis of Queuing Systems".

In this Special Issue, we propose to collect articles devoted to recent studies in the field of Queuing Theory. These can be works related to technology, social or economic problems, or problems in any other areas. We also invite publications and papers in the field of pure queueing theory, as these can serve as a basis for future applied research.

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
