### Message from the Guest Editors

Dear Colleagues,

The proposed Special Issue will encompass a wide variety of topics and will highlight the commonalities among areas that at first glance seem unrelated. Special emphasis will be placed on the interplay between fixed point theory and graph theory and the extension of some topics in analysis to the context of generalized metric spaces, in which the distance function takes values on a monoid...

## Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), and many other databases.

**Journal Rank:** JCR - Q1 (*Mathematics*) / CiteScore - Q2 (*General Mathematics*)
