

# Special Issue

## Applied Mathematical Modelling and Dynamical Systems, 2nd Edition

### Message from the Guest Editors

We are delighted to announce the forthcoming opening of the second volume of our Special Issue. Building upon the resounding success of the inaugural edition, we present to you a renewed opportunity to contribute to a Special Issue titled "Applied Mathematical Modelling and Dynamical Systems, 2nd Edition". Dynamical systems serve as versatile models that can encapsulate a wide array of natural and societal phenomena. The core objective of theoretical exploration lies in the analysis and comprehension of processes that frequently intersect with diverse areas of application, encompassing fields such as control theory, bifurcation theory, population dynamics, networks, synchronization phenomena, electronics, physics, mechanics, economics, biology, and ecology, among many others. In this second volume, we call for original research articles, concise communications, and comprehensive review papers. Our interests span across both theoretical inquiries and practical investigations into models associated with the aforementioned domains. We eagerly anticipate your contributions as we embark on this new chapter of exploration.

### Guest Editors

Prof. Dr. José Leonel Linhares da Rocha

CEAUL and Department of Mathematics of ISEL-Engineering Superior Institute of Lisbon, Polytechnic Institute of Lisbon, Rua Conselheiro Emídio Navarro 1, 1959-007 Lisboa, Portugal

Prof. Dr. Daniele Fournier-Prunaret

Institut National des Sciences Appliquées de Toulouse, 31400 Toulouse, France

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
