

# Special Issue

## Advanced Research in Pure and Applied Algebra

### Message from the Guest Editor

This Special Issue entitled “Advanced Research in Pure and Applied Algebra” endeavors to publish research papers of the highest quality, with an appeal to specialists in the field of linear and abstract algebra and to the broader mathematical community. We hope that the distinctive aspects of this Special Issue will bring the reader close to the current research in these fields and open avenues for more direct and less ambivalent approaches for these topics. Our goal is to invite authors to present their original articles, as well as review articles, that will stimulate continuing efforts to develop new results in these areas of interest. We hope that this Special Issue will have a great impact on other people in their efforts to broaden their knowledge and investigation and help researchers to summarize the most recent developments and ideas in these fields. This Special Issue invites authors to present their original articles that not only provide new results or methods but also may have a great impact on other people in their efforts to broaden their knowledge and investigation.

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
