Special Issue

Intelligent Control and Real-World Applications

Message from the Guest Editor

The rapid development of intelligent control strategies has revolutionized real-world applications across various engineering and technological domains. From industrial automation to energy management and transportation systems, intelligent control plays a critical role in optimizing performance, enhancing efficiency, and enabling autonomous decision-making. To highlight the latest developments and innovative approaches in this field, we propose a Special Issue titled *"Intelligent Control and Real-World Applications"* for *Mathematics*, an international peer-reviewed journal. This Special Issue aims to highlight innovative research that integrates intelligent control techniques with practical applications, addressing both theoretical advancements and experimental validations.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
