

Special Issue

Graph Theory: Advanced Algorithms and Applications

Message from the Guest Editor

Graph theory has grown into a significant area of mathematical research, with applications in computer network architecture, electronic circuits, interpersonal graphs, social network analysis, and many other areas that require fast algorithms for various optimization problems. For this Special Issue, we welcome all research papers on the mathematical, computational, and applied aspects of graph theory. We invite contributions of original research to this Special Issue, “Graph Theory: Advanced Algorithms and Applications”, which aims to report and review recent developments concerning graph theory and discrete mathematics, covering the whole range of this field from theory to applications.

Guest Editor

Prof. Dr. Ruo-Wei Hung

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
