

Special Issue

Optimization in Sustainable Transport and Logistics

Message from the Guest Editors

With the development of the world economy and international trade, the transportation industry has become the artery of modern society. The soaring volume of transportation inevitably leads to the problem of exhaust materials and other byproducts. Given the ever-increasing attention to social welfare, sustainability has been recognized as one of the major concerns in transportation and logistics. This Special Issue will cover a wide range of topics related to this theme, including waste management, vehicle operation, supply chain management, green transportation, green logistics, regulation design, etc. We are pleased to invite researchers to submit their latest research on the above topics. We are looking for novel, original, and innovative approaches solving relevant problems. Submissions presenting new applications, theoretical results, and new models are welcome.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
