Multi-Criteria Decision-Making and Operations Research

Message from the Guest Editors

Multi-criteria decision-making and operations research are important branches of management science and engineering. Due to the complexity of objective things and ambiguity of human thinking, multi-criteria decision-making and operations research modeling and methods in various fuzzy environments have attracted wide attention and have been extensively employed to diverse engineering and scientific fields. Since Zadeh initiated the concept of a fuzzy set, the fuzzy set theory has been widely used in various real-life decision-making problems.

We are pleased to invite you to contribute original research articles and review articles, which will stimulate continuous research on multi-criteria decision-making, operations research modeling, and methods and applications of various fuzzy theories in order to evaluate/solve decision-making problems in engineering and other scientific fields.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
