

# Special Issue

## Multi-Criteria Optimization Models and Methods for Smart Cities

### Message from the Guest Editors

The purpose of this Special Issue is to gather a collection of articles which reflect on the latest developments in mathematical programming methods of operations research for multi-criteria decision-making processes for different fields of multi-criteria optimization approaches, models, applications, and techniques. Submissions are welcome to cover not only multi-criteria theoretical algorithms, but also practical applications in smart cities, logistics, supply chains, cybersecurity, healthcare, amongst other areas.

### Guest Editors

Prof. Dr. Bartosz Sawik

1. Space Technology Department, AGH University of Krakow, Mickiewicza 30, 30059 Kraków, Poland
2. GILT-OR Group, Department of Statistics, Computer Science and Mathematics, Institute of Smart Cities, Public University of Navarre, Campus Arrosadia, 31006 Pamplona, Spain
3. Department of Industrial Engineering and Operations Research, Haas School of Business, University of California at Berkeley, Berkeley, CA 94720, USA

Dr. Elena Pérez-Bernabeu

Department of Applied Statistics, Operations Research and Quality, Universitat Politècnica de València, 03801 Alcoy, Spain

### Deadline for manuscript submissions

31 May 2026

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
