

Special Issue

Advances in Time Series Methods for Information Security Risk Analysis and Risk Management

Message from the Guest Editor

We invite you to advance the scientific and practical understanding of information security risk analysis and risk management through time series methodologies. This Special Issue will showcase innovative models, methodologies, and empirical studies that enhance the identification, quantification, and mitigation of cybersecurity risks, while also exploring human, technical, and organizational dimensions in risk management practices.

This Special Issue encourages original research articles and comprehensive reviews that explore time-dependent aspects of cybersecurity risks and their management. We welcome submissions presenting innovative approaches and practical applications that enhance understanding of and advance effective strategies for addressing critical challenges in safeguarding information systems and mitigating cybersecurity risks.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
