

# Special Issue

## Advanced Computational Intelligence

### Message from the Guest Editors

We are pleased to invite contributions to this Special Issue entitled “Advanced Computational Intelligence”. For decades, different computational techniques and, above all, machine learning, have had a major impact on the research sector. This has been caused by the generalist nature of these techniques, which allows their application in different fields. Nowadays, numerous advances are made in the field of computational intelligence. Researchers are exploiting the capacity of algorithms for approaching a wide range of problems, which may have a great socio-economic impact on the population. This Special Issue welcomes proposals that provide new approaches and techniques, belonging to the branch of computational intelligence, to tackle problems of different topics, especially those real cases that can be of great social interest.

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
