

Special Issue

Mathematical Optimization and Decision Making Analysis

Message from the Guest Editors

In this Special Issue, we delve into the latest advancements, pressing challenges, and promising potential of harnessing mathematical optimization and decision-making analysis across a variety of disciplines. The focus of this Special Issue is on introducing cutting-edge methodologies and ingenious solutions, underlining their indispensable role in today's complex decision-making dynamics. The breadth of topics provides an in-depth exploration of traditional areas such as linear and non-linear programming and multi-objective optimization, alongside more contemporary subjects like fuzzy decision-making, robust optimization, stochastic programming, and evolutionary algorithms that adeptly handle constraints. Moreover, it draws attention to the current trends and developments in machine learning and artificial intelligence, which proceeds to highlight the practical applications of these techniques.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
