Special Issue

Fuzzy Systems and Hybrid Intelligence Models

Message from the Guest Editor

We are excited to announce a Special Issue of the *Mathematics* Journal dedicated to exploring fuzzy systems and hybrid intelligence models. With their inherent ability to handle uncertainty and imprecision, fuzzy systems have long been at the forefront of intelligent systems research. This Special Issue aims to showcase the latest advancements in fuzzy systems, focusing on their integration into hybrid intelligence models applied to different areas such as industry, medicine, cyber security, and others. In an ever-evolving technological landscape, hybrid intelligence models that combine fuzzy logic with other AI techniques have demonstrated remarkable potential for solving complex, real-world problems. We invite researchers and practitioners to submit their original research, reviews, and case studies that delve into the innovative fusion of fuzzy systems and hybrid intelligence. Join us in advancing the frontiers of intelligent systems and exploring their practical applications. Together, we aim to foster a deeper understanding of fuzzy systems' role in shaping the future of AI and decision support systems.

Guest Editor

Dr. Paulo Vitor Campos Souza

Intelligent Digital Agent Unit in Povo-Trento, Fondazione Bruno Kessler, 38122 Trento, Italy

Deadline for manuscript submissions

15 March 2026

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
