

Special Issue

Advances on Complex Analysis

Message from the Guest Editors

The purpose of this Special Issue is to gather contributions on the most recent advances in the mathematical theory of complex analysis and its applications to the fields of physics and engineering as well as other areas of mathematics, both pure and applied. We would like to include recent developments in several branches of complex analysis, including geometric function theory, analytic number theory, differential subordination and superordination, function algebras, and quantum calculus and its applications in geometric function theory. Our goal is to stimulate continuing efforts toward developing new results on these topics. To help us meet this goal, we invite authors to submit original research articles as well as high-quality review articles that reflect the Special Issue theme.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
