New Frontiers in Applied Mathematics and Statistics

Message from the Guest Editor

This Special Issue is intended to include selected peer-reviewed papers presented at the 2020 Asia-Pacific Conference on Applied Mathematics and Statistics, to be held on 17–19 February 2020 in Sydney, Australia. Other independent submissions dealing essentially with the theme of the conference (AMS 2020) will also be welcome. More details about the conference can be found at the following link: <http://www.apcams.org/>. There is a wide range of research topics, spanning both theoretical and systems research, for this Special Issue. We cordially invite researchers working in the field of applied mathematics and statistics to contribute original research papers or reviews to this Special Issue of MDPI's SCIE-ranked journal, *Mathematics*. About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.3 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2024).
