

# Special Issue

## Digital Transformation of Mathematics Education

### Message from the Guest Editors

Mathematics education at various levels and in various forms is a key factor in the development of the digital economy. It is no less obvious that the quality of mathematics education is absolutely essential for the development of mathematics itself. The digital revolution that began over 100 years ago within mathematics has led to a radical change in the life of humankind, in the ways of understanding the world, communication, and learning. It is necessary to analyze the effectiveness of the tools used, from the simplest manipulatives and calculators to dynamic geometry, computer algebra, data processing tools and machine learning, and augmented reality. The aim of this Special issue is to provide a prestigious platform to exchange results of empirical research, based on innovative curriculum approaches, learning environments, and activities, as well as national-level and comparative studies.

### Guest Editors

Prof. Dr. Mikhail Noskov

Institute of Space and Information Technologies, Siberian Federal University, 660074 Krasnoyarsk, Russia

Prof. Dr. Alexei Semenov

1. Faculty of Mechanics and Mathematics, Lomonosov Moscow State University, 119991 Moscow, Russia
2. Moscow Institute of Physics and Technology, 117303 Moscow, Russia

### Deadline for manuscript submissions

closed (28 February 2022)

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
