

Special Issue

Economic Modelling: Theory, Methods and Applications

Message from the Guest Editor

It is my honour to invite you to submit your research paper in economic to a *Mathematics* special issue entitled *Economic Modelling: Theory, Methods and Applications*. In order to disseminate state of art economic research to a broad audience in the field of mathematics, the special issue is intended to cover a broad scope of economic analysis that is based on a solid mathematical model and its economic and econometric analysis. In particular, I welcome research on, but not limited to, the design of economic policy and institutions, the organization of markets, and market quality. Each paper should include a statement clearly and concisely defining the issue to be addressed, the analytical method on which the paper is based, and a statement(s) of results that can be understood, and appreciated, by non-economics. Of course, this invitation does not imply the paper will be accepted for publication. The submitted papers will all be carefully referred by specialists. I look forward to receiving your paper.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
