

Special Issue

FSTA: Fuzzy Set Theory and Applications

Message from the Guest Editors

We cordially invite you to submit your articles to the Special Issue of *Mathematics* entitled “FSTA: Fuzzy Set Theory and Applications”. This Special Issue is devoted to topics in all aspects of fuzzy logic and soft computing, namely: 1. Theoretical foundations of fuzzy logic and fuzzy set theory;

2. Rough set theory;
3. Neuro-fuzzy systems;
4. Fuzzy control;
5. Imprecise probabilities and fuzzy methods in statistics;
6. Stochastic and fuzzy optimization;
7. Approximate reasoning;
8. Clustering and classification;
9. Intelligent data analysis and data mining;
10. Data aggregation and fusion;
11. Theory and applications of decision making;
12. Forecasting and time series modeling;
13. Image processing and computer vision;
14. Information retrieval;
15. Knowledge representation and knowledge engineering;
16. Linguistic modeling;
17. Natural language processing, generation, and understanding. We encourage any researchers with novel results in fuzzy set theory and its applications to prepare the publication outputs in the *Mathematics* format and to submit them to our Special Issue.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
