## Selected Papers from the International Conference of Numerical Analysis and Applied Mathematics (ICNAAM)

### Message from the Guest Editors

The aim and scope of the International Conference of Numerical Analysis and Applied Mathematics (ICNAAM) ([www.icnaam.org](http://www.icnaam.org)) is to bring together leading scientists of the international numerical and applied mathematics community and to attract original research papers of high quality. The conference covers all the areas of applied mathematics and numerical analysis. Special attention will also be given to the applications of numerical analysis and mathematics to real-world problems, as well as to important areas of science, technology, medicine, biology, and engineering. ICNAAM will also give attention to educational tools as well as software for applied mathematics and numerical analysis.

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.
