Special Issue

Inequalities II

Message from the Guest Editor

This Special Issue is a continuation of the previous successful Special Issue "Inequalities". Inequalities often appear in various fields of natural sciences. Nowadays, researchers are still improving and/or generalizing famous classical inequalities. That is, inequalities are being actively studied by mathematicians. Moreover, classical inequalities can be applied in engineering fields, and a newly obtained inequality is beautiful. Such beauty may attract one to the study of inequalities. In this Special Issue, we call for papers on new results for mathematical inequalities, as well as new proofs for well-known inequalities or short notes with interesting results in open problems. We welcome all kinds of mathematical inequalities, such as scalar inequalities on summation, inequalities on integral form, operator/matrix inequalities, and norm inequalities.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
