Special Issue

Mathematical Modeling and Applications in Industrial Organization

Message from the Guest Editors

We are pleased to announce a Special Issue of the journal *Mathematics* entitled "Mathematical Modeling and Applications in Industrial Organization". It is a fast-moving field of the economy that requires new research, both theoretical and practical. This Special Issue covers a wide range of problems in economic analysis based on mathematical models using a variety of tools, including econometric and cluster analysis. Research is encouraged that includes the modeling of the complex processes in the operation and quality of different markets, firm problems, regulation issues, and innovation. We will give preference to submissions that develop new mathematical approaches to modeling and analysis in industrial organizations.

Guest Editors

Dr. Natalia Aizenberg

Department of Electric Power System, Melentiev Energy Systems Institute SB RAS, 664033 Irkutsk, Russia

Prof. Dr. Sergey Dzuba

Department of Economic Science of School of Economics and Management, Far Eastern Federal University (FEFU), 690922 Vladivostok, Russia

Deadline for manuscript submissions

closed (1 September 2024)

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
