

Special Issue

Mathematical Methods and Models in Software Engineering

Message from the Guest Editors

This special issue targets illustration of different solutions, which take part in such virtual environments. Potential topics, which are considered to be presented in this special issue, are listed as: advances in information systems and technologies, digital transformation of processes, advances in software and system engineering, Information system management, Internet of things, challenges and applications, autonomic computing, computer aspects of numerical algorithms, scalable computing, advances in network systems and applications, software engineering, knowledge acquisition and management. We expect the submitted papers to present solutions and examples based on mathematical optimization, algorithms for application domains, approximation algorithms, operation research approaches and others formal approaches. We are inviting submissions to the Mathematics Special issue on “Mathematical Methods and Models in Software Engineering”.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
