

Special Issue

Mathematics, Statistics and Applied Computational Methods

Message from the Guest Editors

This special issue intends to address Computation and Mathematical Methods which are noticeably necessary for the understanding of many actual problems that arise in the applied sciences. Given the large scope of potential approached problems mentioned, the aim of this issue is to collect original and high-quality papers either focused essentially in the applied presented problems or more general theoretical views concerned with conceptual approaches of interest. In this special issue we are interested in multidisciplinary research the convey different and innovative perspectives into the fields of computation, mathematical methods in applied sciences and data science.

Guest Editors

Dr. Marina Alexandra Pedro Andrade

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
