

# Special Issue

## Model and Simulation in Structural Engineering

### Message from the Guest Editor

This Special Issue aims to publish original research articles covering advances in mathematical models and algorithms, number theory, and simulation methods in structural engineering and aspires to a broad and integrated coverage of these principles and technologies to structural engineering. The scope of this Special Issue encompasses but is not restricted to the following areas: infrastructure engineering; earthquake engineering; constitutive model; structural dynamics; blast engineering; structural reliability/stability; life assessment/integrity; structural health monitoring; performance-based design; multiscale analysis; simulation techniques; efficient numerical calculation method and theory; protective structures; smart structures. Keywords:

- numerical and modeling analysis
- mathematical models
- calculation method
- structural dynamics
- infrastructure engineering
- number theory
- numerical analysis
- constitutive model
- structural health monitoring

---

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

---

### Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,  
The Gateway, Leicester LE1 9BH, UK

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
