

# Special Issue

## Modeling and Analysis of Queuing Systems

### Message from the Guest Editor

We would like to invite you to submit your papers to the Special Issue, "Modeling and Analysis of Queuing Systems". In this Special Issue, we propose to collect articles devoted to recent studies in the field of Queuing Theory. These can be works related to technology, social or economic problems, or problems in any other areas. We also invite publications and papers in the field of pure queueing theory, as these can serve as a basis for future applied research.

## About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
