Special Issue

New Trends in Complex Analysis Researches

Message from the Guest Editor

The new Special Issue aims to bring the newest results of the study on complex valued functions of one or several complex variables. The topic related to several variables was added as a tribute to the memory of the great researcher, Professor Gabriela Kohr from Babeş-Bolyai University, Cluj-Napoca, Romania. She will be missed, but her brilliant ideas will live on and inspire generations to come. This Special Issue aims to put together research regarding complex valued functions of one and several variables and hence push forward the development of both branches, also inspiring parallels between them.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
