

Special Issue

Data Hiding, Steganography and Its Application

Message from the Guest Editors

We are pleased to announce a call for papers for a Special Issue on «Data Hiding and Steganography and Its Application» to be published in MDPI. Data hiding and steganography have been widely used in various fields, including information security, digital forensics, and copyright protection. In recent years, with the rapid growth of digital media, there has been an increasing demand for efficient and effective techniques for data hiding and steganography. One of the newest issues in data hiding and steganography is the use of deep learning and neural networks to develop more sophisticated hiding and detection techniques. Another emerging issue is the use of data hiding and steganography in the context of cybersecurity and cybercrime. In addition to this main topic, we also welcome papers in various fields that apply digital images, deep learning, and the neural network. This Special Issue aims to bring together researchers and practitioners to discuss the latest developments in data hiding and steganography, as well as their applications.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
