Special Issue

IIHMSP: Intelligent Information Hiding and Multimedia Signal Processing

Message from the Guest Editors

We cordially invite you to submit your articles to the Special Issue of Mathematics entitled "IIHMSP: Intelligent Information Hiding and Multimedia Signal Processing". This Special Issue will include papers from the IIHMSP 2025 conference. For information about the conference, please refer to https://iihmsp25.github.io. Multimedia technologies facilitate the creation of global information infrastructure for acquiring, storing, and communicating data in different forms. The proliferation of multimedia applications has raised challenges such as multimedia security and privacy, big data in multimedia, and intelligence in multimedia processing. Topics of interest for this Issue include, but are not limited to, the following: information hiding and security; multimedia signal processing and networking; bioinspired multimedia technologies and systems; and information and computer technology. We welcome authors of all related interests to contribute to this Special Issue.

Guest Editors

Prof. Dr. Ruo-Wei Hung

Department of Computer Science and Information Engineering, Chaoyang University of Technology, Wufeng, Taichung 413310, Taiwan

Dr. Ling-Ju Hung

Institute of Information and Decision Sciences, National Taipei University of Business, Taipei 10051, Taiwan

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
