Special Issue

Parallel Computing and Applications

Message from the Guest Editors

Currently, parallel computing technologies and highperformance computing are ubiquitous and play a crucial role in data processing. When adapting existing and developing novel data processing methods, researchers and practitioners are faced with issues related to increasing levels of parallelism in computing architectures, software, and algorithms. This Special Issue aims to publish high-quality, cutting-edge research articles on solutions to challenges in parallel computing and its applications in various domains. The scope of the Special Issue includes (but is not limited to) the parallel and distributed computing technologies on multiprocessor and multicore architectures; application of parallel methods and algorithms in computational mathematics, gas hydrodynamics, and mechanics; parallel algorithms in data mining; parallel methods in machine learning and neural networks, and parallel and distributed database systems.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
