

Special Issue

Theories of Process and Process Algebras

Message from the Guest Editor

This Special Issue on Process Algebra and Collective Intelligence focuses on mathematical approaches to the description and analysis of processes, in particular, those that invoke some form of process algebra, as well as applications to the study of collective intelligence. Topics to be considered include the mathematics of process algebras, their core concepts and structures, approaches to describing and modeling dynamical phase spaces, networks, functionality, fungibility of agents and roles, generation, and contextuality. Additional topics include the application of process algebra approaches to the description and analysis of the dynamics and functionality of biological collective intelligence systems, such as social insect colonies, swarms, and mobs.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
